\*All applications received will be analyzed in the strictest confidence.

#### WE OFFER

- The opportunity to become a member of a team of designers and site staff who work mainly in the realization of projects related to civil infrastructure, and public and private buildings;
- A work environment with a team of committed professionals in a collaborative atmosphere that will allow you to reach your full potential through a multitude of projects;
- A flexible corporate spirit adapted to the needs of the employee in a professional framework;
- A full range of social benefits (group insurance, group RRSP, vacation);
- A skills development program;
- Competitive wages based on the candidate's experience.

### YOUR PROFILE

- You are a member in good standing of the New Brunswick Society of Certified Engineering Technicians and Technologists;
- You have 0 to 5 years years of experience in the design and supervision of projects involving certain areas of specialization in civil engineering, namely municipal and transportation engineering, and construction management. Applicants with more than 5 years' experience will be considered;
- You are proficient in AutoCAD Civil 3D;
- You have good knowledge of surveying techniques.

## **YOUR QUALITIES**

- Good communication skills, verbal and written; bilingualism would be an asset;
- A strong interest in construction, surveying, design on drawing and teamwork;
- Ease of adaptation to various situations, the willingness to overcome design and site challenges, as well as good communication of project details in an active work environment.
