# STUDENT EMPLOYMENT

OPPORTUNITY

SUMMER 2024

Acadian Peninsula

### WE OFFER

- The opportunity to collaborate in the work carried out by a team of designers and site personnel who work mainly in the realization of projects related to municipal and road infrastructures.
- A working environment created by a team of committed professionals and a collaborative atmosphere that will allow you to put into practice the skills and knowledge acquired during your academic career through a multitude of concrete achievements.
- A flexible corporate spirit adapted to the needs of the employee in a professional framework.

### YOUR ABILITIES

- Proficiency in Microsoft Office 365® suite software and AutoCAD® and AutoCAD® Civil 3D software.
- Good knowledge of surveying techniques using GPS or robotic instruments.
- Good verbal and written communication skills in both official languages.
- A sincere team spirit, a real sense of responsibility and an understanding of professional ethics.
- A keen interest in construction, computer-assisted design and teamwork in an active work environment.
- An ease of adaptation to various situations, a willingness to overcome design and construction challenges, as well as an understanding of the realities of the industry.

### JOB DESCRIPTION

- Participate in the design and/or quality control of projects that call on certain areas of the **civil engineering** specialization, namely:
  - Drinking water systems;
  - Sanitary and storm sewer systems;
  - Urban developments;
  - Intercity roads;
  - Urban streets and streets of local interest;
  - Bicycle lanes;
  - Parking lots, sidewalks and curbs, and signage;
  - Ditches, control structures and culverts.
- Perform technical tasks according to the needs specific to ongoing projects, such as:
  - Collecting and recording basic information required for the completion of engineering mandates (i.e., measurements, surveys, observations and/or sampling on site, collection of technical data, etc.);
  - Drafting of studies and/or technical reports;
  - Calculation, modelling and design of undertakings;
  - Drafting and/or supervision of technical drawings production
    - computer-assisted drafting (AutoCAD® and AutoCAD® Civil 3D);
  - Preparation of technical specifications;
  - Quantity and/or probable construction cost estimates;
  - Site supervision (inspection).
- Share, with the existing personnel, the day-to-day tasks related to the activities of the regional office.

### SPECIFIC HIRING CONDITIONS

- You have completed the 3<sup>rd</sup> year of the Bachelor of Civil Engineering program, as offered by the University of New Brunswick (UNB) or Université de Moncton (U de M).
- You own a vehicle and a valid Class 5 driver's licence: A kilometric allowance will be paid for the use of your personal vehicle for work-related travel.

**CANDIDATES INTERESTED IN APPLYING FOR THIS EMPLOYMENT OPPORTUNITY  
ARE ASKED TO E-MAIL THEIR RESUMÉ BY FEBRUARY 29, 2024**
