STUDENT EMPLOYMENT

OPPORTUNITY

SUMMER 2025

WE OFFER

- The opportunity to collaborate in the work carried out by a team of site personnel who work mainly in quality assurance and quality control (QA/QC) of projects related to civil infrastructures and public and private buildings.
- A working environment created by a team of committed professionals and a collaborative atmosphere that will allow you to put into practice the skills and knowledge acquired during your academic career through a multitude of concrete achievements.
- A flexible corporate spirit adapted to the changing realities of the employee in a professional framework.

JOB DESCRIPTION

- Actively participate in the quality control of projects that call on certain areas of the **civil engineering** specialization, namely municipal and road infrastructures, and foundations.
- Perform technical tasks according to the needs specific to ongoing projects, such as:
 - Collecting and recording basic information required for the completion of engineering mandates (i.e. surveys on site, collection of technical data, etc.);
 - On-site sampling of materials;
 - Laboratory material testing and analysis (aggregates and/or cement concrete);
 - On-site material testing (aggregates, asphalt and/or cement concrete);
 - Supervision (inspection);
 - Compilation and/or interpretation of material testing results;
 - Drafting of studies and/or technical reports.
- Share, with the existing personnel, the day-to-day tasks related to the activities of the regional office.

YOUR QUALITIES

- Proficiency in Microsoft Office 365® suite software.
- Knowledge of testing and laboratory analysis techniques on materials.
- Good verbal and written communication skills in both official languages.
- A sincere team spirit, a real sense of responsibility and an understanding of professional ethics.
- A keen interest in construction and teamwork in an active work environment.
- An ease of adaptation to various situations, a willingness to overcome construction challenges, as well as an understanding of the realities of the industry.

SPECIFIC HIRING CONDITIONS

- You have completed the 1st year of the Civil Engineering Technology program – general coop, as offered by the New Brunswick Community College (NBCC) or the Collège communautaire du Nouveau-Brunswick (CCNB).
- You own a vehicle and a valid Class 5 driver's licence: A kilometer allowance will be paid for the use of your personal vehicle for work-related travel.

**ALL PERSONS INTERESTED IN APPLYING FOR THIS EMPLOYMENT OPPORTUNITY
ARE ASKED TO SEND THEIR CURRICULUM VITAE BY FEBRUARY 28, 2025**
